PROJECT NAME: Bray Grazing Preference Transfer

LEGAL DESCRIPTION: T. 45. N., R. 14 W., sec 6-7, T. 45. N., R. 15 W., sec. 12-13.

APPLICANT: Robert Bray

BACKGROUND: Grazing preference and base property for Middle Hamilton allotment #07233 are held by The Naff Children Real Property Trust. Base property for Middle Hamilton allotment has been leased and controlled by Bray Ranches since the 1980's. Subsequently, Bray Ranches have held a grazing permit for Middle Hamilton allotment since that time. The most recent base property lease held by Bray Ranches for Middle Hamilton allotment expired March 1, 2014. The BLM has received an application from Bray Ranches for the transfer of grazing preference on Middle Hamilton allotment based on a new base property lease.

The transfer of grazing preference is considered administrative in nature and serves to transfer livestock grazing privileges, with the same class of livestock and forage allocation, from one grazing preference holder to another. Approval of grazing preference transfers are outlined in 43 CFR 4110.2-1(d) and 4110.2-3.

DESCRIPTION OF PROPOSED ACTION:

The proposed action is to transfer grazing preference from The Naff Children Real Property Trust to Bray Ranches for the span of the base property lease, which is March 1, 2014 to March 1, 2019. This grazing preference transfer is the result of changes in control of the base property associated with the allotment. Bray Ranches is a qualified applicant.

The grazing allotment involved and the associated grazing preference and season of use are summarized in the table below. The proposed action is compliant with 43 CFR 4110.2-1(d) and 4110.2-3.

DECISION AND RATIONALE:

I have reviewed this Categorical Exclusion and have decided to approve the administrative transfer of grazing preference from The Naff Children Real Property Trust to Bray Ranches for the span of the base property lease, which is March 1, 2014 to March 1, 2019.

There are no impacts to public land since the transfer action only results in a transfer of grazing preference. The Proposed Action is categorically excluded from further documentation under

the National Environmental Policy Act (NEPA) in accordance with 516 DM 11.9, Section: D, Range Management, Number 1, which allows "approval of transfers of grazing preference". I have evaluated the action relative to the 12 criteria listed above and have determined that it does not represent an exception and is, therefore, categorically excluded from further environmental analysis.
